

ATTITUDES TOWARDS SUGARS AND SWEETENERS – GERMANY – 2020

COVID-19 saw consumers turn to comfort foods while also prioritising healthy eating, providing opportunities for sugary treats as well as low-sugar products.

Heidi Lanschützer, Deputy
Research Director,
Germany

Report Content

EXECUTIVE SUMMARY

- Mintel's perspective

Market context

- The impact of COVID-19 on attitudes towards sugar and sweeteners in food and drink
- Healthy eating is high on consumer and government agendas
- Naturalness is key for Germans

Mintel predicts

- Overweight and obesity remain a pressing concern
- Ageing population increases opportunities for less-sweet food
 - Graph 1: population by age group, 2014-24

What consumers want and why

- Consumers want low sugar content
- Consumers want neither refined white sugar nor artificial sweeteners
- Consumers want transparency in how sugar reduction is achieved

Opportunities

- Add a savoury twist to sweet products for a less-sweet flavour profile
- Call out sweeteners' added-value attributes
- Explore sustainability benefits of local sugar beet
- Look to food waste as a source of sustainable sweeteners
- Quick download resources

THE IMPACT OF COVID-19

- COVID-19's impact on the broader category
- Key shifts in consumer behaviours
 - Graph 2: concern about the risk of being exposed to COVID-19, 3 March-5 August 2020
- How COVID-19 is impacting key consumer segments
- Acknowledging threats...
- ...and focusing on opportunities
- How a COVID-19 recession will reshape the industry

MARKET DRIVERS

Health concerns around food and drink

- Sugars and artificial sweeteners are a leading concern
 - Graph 3: concerns around the amount of the following found in food and non-alcoholic drinks, June 2020
- The spotlight is firmly on sugar content
- Public spotlight is firmly on sugar content
- Naturalness is the nation's number one priority
- Use new ways to denote 'natural'

Overweight and obesity in Germany

- Overweight and obesity levels remain high in Germany
- Over half of German adults are overweight or obese, and rates continue to grow
 - Graph 4: trends in body mass index (BMI), 1999-2017

Legal and political measures towards sugar reduction

- Salt, fat and sugar reduction targets set for processed food for 2025
- Nutri-Score can help consumers to choose healthy diets
 - Graph 5: types of information that would help consumers understand the sugar content of food and drink, June 2020
- Government distances itself from a sugar tax

Age-related perceptions of sweetness

- Shifting age structure presents challenges and opportunities
 - Graph 6: population by age group, 2014-24

Usage of sugars and sweeteners at home

- Consumers use a range of alternative sweeteners at home

WHAT CONSUMERS WANT AND WHY

Sugar consumption and efforts to reduce it

- Over-55s are the most sugar aware
 - Graph 7: opinion about the amount of sugar consumed from all food and drink, by age group, June 2020
- Perceptions of sugar intake diverge from official data
- Older men take less interest in reducing sugar consumption
 - Graph 8: consumers who are actively taking steps to limit or reduce the amount of sugar in the diet, by gender, June 2020
- Healthy eating is high on Germans' agendas, but there's lots of room for treats too
 - Graph 9: where consumers sit on the healthy diet spectrum, July 2019

Attitudes towards Sugars and Sweeteners – Germany – 2020

- Choosing low/no/reduced products is the preferred way to limit or reduce sugar intake
 - Graph 10: actions taken to limit/reduce sugar intake, June 2020
- Plant-based sweeteners will strike a chord
- Savoury flavours can appeal to sugar-concerned consumers
- Promote healthier shortcuts to aid cooking from scratch
 - Graph 11: consumers who cook from scratch to limit/reduce sugar intake, by gender and age, June 2020

Perception of sugars and sweeteners

- Refined sugar and artificial sweeteners are viewed most negatively
 - Graph 12: perceptions of sugars and sweeteners, June 2020
- White sugar considered most highly processed
 - Graph 13: perception of sugars and sweeteners as 'processed', June 2020
- Raw cane/beet and brown sugar viewed as less processed
 - Graph 14: perceptions of cane and beet sugar types, June 2020
- Honey stands out for its natural and appealing quality
 - Graph 15: perception of sugars and sweeteners as 'natural', June 2020
- Kolibri combines naturalness and customisation with agave syrup
- Plant-based sweeteners enjoy positive image compared to artificial ones
 - Graph 16: perceptions of sweeteners, June 2020
- Education around plant-based sweeteners is important

Behaviours towards sugar and sweeteners in food and drinks

- Provide information on how sugar reduction is achieved
 - Graph 17: behaviours towards sugar and sweeteners in food and drink, June 2020
- Transparency will win consumers' trust
- Communicate additional benefits of sweeteners
- Innovators explore fibres to reduce sugar content

Attitudes towards sugar and sweeteners in food and drinks

- Even sweet food categories can reduce sugar
 - Graph 18: attitudes towards sugar and sweeteners in food and drink, June 2020
- Consumers are happy with a less-sweet taste
- Creatively introduce sceptical consumers to sugar reduction
- REWE collaborates with consumers in developing reduced-sugar products
- Expand the portfolio of products with stevia
- Consumers look for sustainability initiatives
 - Graph 19: agreement that beet sugar is more sustainable than cane sugar, by age groups, June 2020

LAUNCH ACTIVITY AND INNOVATION

Usage of sugar and sweeteners in NPD

- Usage of white sugar decreases in favour of non-nutritive sweeteners
 - Graph 20: new food and drink launches, by use of sugars and sweeteners, Jan 2016–Aug 2020
- Some companies highlight their use of sugar alternatives on front of pack
- Usage of sugars and sweeteners in drink launches
 - Graph 21: drink launches by use of sugars and sweeteners, Jan 2016–Aug 2020
- Usage of sugars and sweeteners in food launches
 - Graph 22: food launches in selected categories, by use of sugars and sweeteners, Jan 2016–Aug 2020
- Sugar content of products with added sugar is shifting

Use of low/no/reduced sugar claims in NPD

- Sugar-related claims see consistent growth
 - Graph 23: food and drink launches with sugar-related claims, Jan 2016–Aug 2020
- Snack bars address consumers' sugar concerns
- Yogurt with no sugar or sweetened with sugar alternatives win favour
- Chocolate manufacturer gives consumers a choice
- Low-sugar credentials are used to make BFY chocolate
- Tea aisle responds to sugar concerns
- Milk and plant-based drinks abandon added sugar
- Low/no/reduced sugar biscuits appeal to the health-conscious consumer
- No added sugar claims increase the appeal of savoury products
- 'Healthier' table sauces have less sugar

APPENDIX

A note on COVID-19

- COVID-19's impact on sugars and sweeteners in food and drink and German consumer behaviour

Appendix – products covered, abbreviations and consumer research methodology

- Abbreviations
- Consumer research methodology

About Mintel Reports: Germany

Access our reports now and get the most accurate, credible and powerful data, insights and analysis. Mintel Reports Germany gives you everything you need to know about what German consumers want and why.

In each report, we're analysing the market, new product innovations and the competitive landscape, as well as consumer behaviours across Germany. Our local analysts, supported by our team of global experts then translate it into what it means for you.

What makes us unique?

- ✔ A 360-degree view of German markets
- ✔ Experienced analysts based in Germany
- ✔ Expert-led support from global category experts

How Mintel Reports Germany will help your business grow:

01

Identify future opportunities by understanding what German consumers want and why

02

Make better decisions faster by keeping informed on what's happening across your market

03

See the trends and innovations impacting Germany both on a local and global level
