

FISH AND SHELLFISH – GERMANY – 2022

Seafood's healthier image and consumer openness to swapping meat for fish and shellfish provide opportunities for future retail sales.

Valentin Thies, Associate Director, Food & Drink

Fish And Shellfish – Germany – 2022

This report looks at the following areas:

- The impact of COVID-19 and rising inflation on the fish and shellfish market in Germany
- Consumers' fish and shellfish usage, including which species of fish and seafood are most popular
- Barriers to eating more fish and shellfish, including price, ease of preparation, smell and taste
- Attitudes towards and behaviours related to fish and shellfish, including sustainability
- How launch activity reflects consumer demand, especially for ethical and environmentally friendly products

Seafood's healthier image and consumer openness to swapping meat for fish and shellfish provide opportunities for future retail sales.

Overview

70% of Germans have been affected by increases in food and drink prices over the last two months to April 2022. As inflation is currently high, with experts predicting a further increase over the coming months, and consumers' incomes being squeezed, we can foresee **private label fish and shellfish brands gaining further share of NPD** in the near future.

The **increased prioritisation of health** due to the pandemic has reinforced one of the key drivers of the already powerful meat reduction trend – and fish/shellfish are benefitting from this trend as well. **28% of fish/shellfish eaters/buyers** have swapped meat products for fish due to health considerations and there is strong potential for brands that have a compelling image of healthiness.

MINTEL

52% of German fish/shellfish eaters/buyers would be interested in fish/shellfish meal kits. Offering meal kits is a great way to simplify preparation by providing step-by-step instructions, and they are useful as a way to increase confidence in cooking.

Report Content

EXECUTIVE SUMMARY

Key issues covered in this Report

- Overview
- The five year outlook for fish and shellfish

Market context

- Rising costs affecting all German consumers
- Fish/shellfish sales fall back as COVID-19 boost declines
- Fish and shellfish on menu for nine in 10 people
 - Graph 1: eating behaviour of fish/shellfish, 2021

Mintel predicts

- Market size & forecast
- Fish and shellfish value sales projected to increase, whereas volume sales decrease
- Volume sales of fish and shellfish forecast to decrease by 12% over 2021-26
- Fish and shellfish sales expected to drop in terms of volume

Opportunities

- Provide more guidance on sustainability of fish and shellfish
- Sustainability is highly important for German fish and shellfish consumers
- Offer a variety of fish and shellfish alternatives
- Promote speedy and convenient fish/shellfish recipes
- Innovate more around meal kits using fish and shellfish

The competitive landscape

- Private label maintains the majority share of fish and shellfish sales
 - Graph 2: brands' retail shares of fish and shellfish sales, by value and volume, 2021
- Quick download resources

MARKET DRIVERS

- German economy hit hard by COVID-19 disruptions
- Strong post-COVID-19 bounceback followed by a period of slower growth
 - Graph 3: key economic data, in real terms, 2019-23
- Rising inflation squeezes household incomes
- Consumers have a greater awareness of planetary health

Fish and Shellfish – Germany – 2022

- Rising concern about sea fishing due to media coverage
- Obesity remains a major public health challenge in Germany...
- ... and the fish category can benefit from an increased focus on health and wellbeing
- Nutri-Score will ensure more nutritional transparency and informed decision making

WHAT CONSUMERS WANT AND WHY

Usage of fish and shellfish

- Fish and shellfish on menu for nine in 10 people
 - Graph 4: eating behaviour of fish/shellfish, 2021
- Fish is consumed relatively infrequently
 - Graph 5: frequency of eating fish, by storage type, 2021
- Salmon is the most popular type of fish eaten across all ages
 - Graph 6: types of fish eaten, 2021
- Over a third of Germans eat just two types of fish
 - Graph 7: repertoire of types of fish eaten, by age, 2021
- Shellfish eating is also quite infrequent
 - Graph 8: frequency of eating shellfish, by storage type, 2021
- Prawns are the most popular type of shellfish eaten across all ages
 - Graph 9: types of shellfish eaten, 2021
- Over half of Germans eat just two types of shellfish
 - Graph 10: repertoire of types of shellfish eaten, by age, 2021
