

BEER – INDIAN CONSUMER – 2020

Adversely impacted by the pandemic, the beer industry will see a sluggish revival in the short term. Healthier brews and unique flavours can aid long term growth.

A Mintel Analyst, Global Analyst

Report Content

- Recovery beers can appeal to the health-conscious Indian
- Sainsbury's opens a pop-up pub but with no alcohol
- Beers with botanicals can build on flavour and health
- Superfoods can extend the health benefits of beer
- Serving suggestions and flavour descriptions can help consumers to pair beer with food
- Beyond packaging, sustainability can come from ingredients and circularity

APPENDIX

- Consumer survey methodology

About Mintel India Consumer

Access our reports now and we'll tell you how major trends are affecting India. We also hone in on the regional differences from socio-economic groups to demographics such as age, gender and household composition. We research consumers in Metro and Tier 1 to 3 cities across the 4 main regions and in 6 local languages.

In each report, we're analysing the trends and the innovations, the behaviours and the influencers of consumers across India. Our local expert analysts then examining the primary research and consumer data and translating it into what it means for you.

- ✔ Find out what Indian consumers want, what they need and what influences their purchasing decisions.
- ✔ Understand the Indian market and see how it fits into wider trends on a local and global level.
- ✔ Take advantage of the gaps and opportunities that exist today, tomorrow and beyond.

How Mintel Indian Consumer will help your business grow:

01

Segment consumers across India according to their regional and demographic differences so you can target them more effectively.

02

Analyse the latest trends and innovations and see how they fit at a local level to identify opportunities for your next big idea.

03

See action-oriented summaries to understand an area quickly or investigate the data to get an in-depth understanding of your market.
